### EXPERIENCE

#### Technical Analyst – Operations & Automation ION

📅 01/2026 - Present

##### Company Description

- Identified operational bottlenecks and built automation solutions using Linux scripting, Microsoft Copilot, and low-code tools to reduce manual effort across production workflows.
- Designed internal products including an AI-powered ticket assistant, automated price tracking, delay notification workflows, and Power BI dashboards for operational analytics.
- Worked closely with clients, exchanges, and internal teams to manage mission-critical financial data workflows while improving communication during production incidents.
- Monitored enterprise infrastructure, analyzed recurring issues, and drove workflow improvements that increased operational efficiency and system reliability.

#### Founder & Operations Lead

##### Moodale

📅 06/2020 - 01/2025

##### Digital Marketing & Strategy Agency ([link](#))

- Founded and scaled a digital marketing and strategy agency, managed a **10+ member cross-functional team** across marketing, operations, and client delivery.
- Delivered 500+ campaigns in marketing, automation, and digital strategy, strengthening retention and ROI outcomes.
- Built a **custom CRM and workflow automations**, using AI-assisted coding tools to design and implement scripts that reduced manual tasks and improved team efficiency.
- Partnered with clients to **define problems, analyze needs, and present solution alternatives** with clear pros and cons.

#### Web Development & UX Intern

##### Teclive Solutions

📅 05/2024 - 07/2024

##### A company focused on innovative web solutions and development

- Collaborated with clients to understand business requirements and translate them into responsive, user-centric web solutions aligned with their goals.
- Leveraged AI-assisted development tools to rapidly prototype and build mobile-optimized websites, reducing development effort and turnaround time.
- Evaluated user interaction patterns and recommended UX improvements that enhanced usability and overall user experience.

#### Operations & Strategy Intern

##### Navdriшти

📅 01/2023 - 02/2024

##### An organization focusing on Financial and Real Estate Services and social entrepreneurship

- Automated internal operational workflows using Google Sheets and Apps Script, significantly reducing manual tracking effort and improving process efficiency.
- Gathered requirements from cross-functional teams and designed workflow tracking systems for tasks, budgets, and operational visibility.
- Coordinated across editorial, finance, design, and operations teams to streamline execution and ensure timely project delivery.

#### Professional Skills

Leadership, Team Management, Strategic Planning, Analytical Thinking, Communication

### PROJECTS

#### Service Management Web Application – Moti Motors

📅 11/2024

🔗 <https://docs.google.com/document/d/13uu5rSsfXyUmlCtB10VZhTeRomUA6DD4KShEPmL0pE/edit?usp=sharing>

A web-based system to digitize after-sales service operations for an automobile dealership.

- Worked with the showroom team and service partner to map the after-sales workflow and identify gaps in profit-sharing records.
- Developed and deployed a lightweight web app with unique job IDs and simple forms to capture and retrieve service jobs digitally.
- Improved data accuracy and transparency, enabling owners to cross-check records and reduce disputes with the service partner.

#### Custom CRM & Automation System

🔗 <https://github.com/yarrmridul/gsheet-taskassignemnt-crm.git>

Automation-driven solution to streamline client management and internal workflows

- Designed a CRM on **Google Sheets with Apps Script** to manage campaigns, billing, tasks, leave approvals, and reminders.
- Automated key workflows including emails, reporting, and task tracking, **reducing manual effort and increasing efficiency.**
